Danielle Nimako

I am creating an advocacy site on the high poverty rate in Syracuse. On page 1, I am writing a short paragraph on the history and current problem. I will also embed pictures and a video to provide a visual aid. On page 2, I will embed graphs that show statistics, such as the highschool dropout rate and more. To explain these numbers, I will use a bullet form of text. On page 3, the webpage will show viewers how they can contribute to bettering Syracuse. I will link websites that show ways the viewers can participate in community service. I will write descriptions of the philanthropies.
